Flowers for Freya
By Linze Kull McCray for Moda Fabrics

Even during challenging times, women of the feed sack era made beauty part of their everyday lives. Whether they filled a jam jar with snapdragons and sunflowers, and set it on the windowsill, embroidered a pair of bluebirds on a potholder, or chose just the right colors from an overflowing scrap basket to stitch into a quilt, mixing something lovely into the humdrum of daily life sparked their creativity and lifted their spirits. And so it does today. Now, more than ever, glimpses of beauty can remind us of all that is good in the world. Flowers for Freya fabrics are based on feed sack prints and are perfect for creating items — bags, zippered pouches, dresses, and of course, quilts—that will lift your spirits and those of the people you love, making everyday moments a little brighter.

"Happiness held is the seed; happiness shared is the flower." (John Harrigan)

POWER SEWING SERIES
mySewnet Software
WITH DENISE BEST

Saturday, March 13 @ 1pm

Watch virtually from the comfort of your home or join us in our socially-distanced classroom!
(limited spots available for in-classroom viewing)

Join us as we continue to explore the possibilities of the new mySewnet software. For this session, you'll learn how easy it can be to digitize your own embroidery design. Yes! You can digitize and it can be easy! We'll also explore the features of PhotoStitch. Learn how easy it is to create an embroidery design automatically from a photo in just a few clicks. Don't miss out. Join us for ALL the fun!

$15.00 Please call Harper's to sign up at: 913-648-2739 or 913-491-4499

This is a Live-Virtual Class/Demo by Denise Best. The cost is $15.00, reserve your space in person or by phone at 913-648-2739.

KEEPING the WORLD SEWING with EXCLUSIVE SENSOR SYSTEM Feature

March is National Quilting and Craft Month and our best-in-class feature - the *EXCLUSIVE SENSOR SYSTEM* is a must-have for quilters and crafters! It automatically and continuously senses and adjusts to any thickness of fabric. This feature helps achieve flawless, even feeding as you sew, and the extra lift position ensures maximum space for those multiple layers!

Last chance classes to sign up for...

Machine Quilting Basics
Learn the basics [and the vocabulary] of Machine Quilting!

From backing and batting to thread, needles and design, there's much to decide when you want to quilt your own quilt tops. The vocabulary alone can feel overwhelming: sandwiching, loft, basting, marking, and it goes on. Let Mary help you with these basics and more. Together we will learn what's important to finish your quilting on your domestic sewing machine. A kit is provided with descriptions of every element and why it's been chosen. With this class your confidence will soar.

Thursday, March 4 ~ 6:00-9:00pm

BOOK NOW!

Intro to Boro Mending & Sashiko Embroidery
Although entirely different in origin and historical application, Boro and Sashiko are now used to embellish clothing and as decorative textiles for the home. Learn the theory and practice by making a table runner or table mat and combine the two techniques into one item.

*Completion of BIG Easy class is helpful, but not required

This is a 2 part class on Tuesday, March 9 & 16 from 6:00-8:00pm

BOOK NOW
